

**Name****WALK ON BARK ***CHECK AVAILABILITY*******Product Category**[Barks & Mulch,](#)**Product Type**[Wood Chips,](#)**Description**

Walk on Bark is a beautiful high-end ground cover for commercial landscapers or homeowners. The Walk-on Bark is made of ground virgin fir. No herbicides or pesticides are used. The Walk-on Bark is screened from 2" to 3". The shape helps the mulch lay down flat and gives a softer feel for pathway applications. Great for water retention (at 2") and weed control (at 3").
